DERMELECT® ASSET MANAGEMENT SYSTEM

*saving neck for delicate décolletés*

## DERMELECT® ASSET MANAGEMENT SYSTEM

The face isn't the only place that ages. A little effort now can keep the most neglected body parts light, smooth and desirable. A comprehensive blend of age-defying ingredients combine to hydrate, firm, tighten and streamline the delicate skin of the neck and cleavage. Increase the elasticity and resiliency of the skin while working to nourish and tone the appearance of sagging facial contours around sensitive areas of the neck and jawline. Your treatment will optimize your skin tone and texture, help fade the appearance of fine lines and wrinkles, and effectively reinforce the delicate skin support system of the décolleté area.

**PREPARATIONS:** For such a notoriously difficult area to treat, you will be amazed and delighted by the results. Prepare a pitcher of citrus water to nourish yourself and constantly do the same for your décolleté by nourishing with both creams. Have some warm, soft towels available, plush pillows and at the end of the regimen comfort your 'self' with some de-stressing time.

### **WHAT TO USE:**

#### **DETOXIFYING OXYGEN (O<sub>2</sub>) FACIAL COMMISSION**

### **WHAT TO DO:**

Layer a generous amount evenly over damp face, throat and décolleté. Allow oxidation to form into a luxurious masque. Leave on for two to three minutes allowing product to draw out impurities and hydrate the skin. Wipe with a hot, wet washcloth. Pat dry.

#### **SELF-ESTEEM BEAUTY SLEEP SERUM**

Apply 5-6 pumps from the jaw bone to the breast bone in a circular motion. Allow the serum to seep in and dry. *FYI... the scent is Vitamin C.*

#### **SELF-ESTEEM NECK FIRMING LIFT**

Working in a downward motion, apply a quarter-size amount beginning at the nape of the neck. Work back across the décolleté in an outward, upward direction. Gently massage in a circular motion until fully absorbed.

#### **CLEAVAGE CONTOUR CREAM**

Lightly smooth on this light, non-greasy lotion until fully absorbed from the base of your chin to the cleavage, underside and sides of the breasts. Apply generously and massage, invigorating the skin. Allow to absorb.

#### **SPF 20 FACIAL ARMOUR**

Protect the neck area whenever you're in strong sunlight. Apply liberally and evenly on the face and chest.
