DERMELECT® SIGNATURE FACIAL

*cleansing, exfoliation,
hydration and restoration*

DERMELECT® SIGNATURE FACIAL

Beauty begins with great skin- skin that glows! We have designed this signature regimen to start you with the basics to allow you to realize immediate improvements to your skin texture. This ambitiously effective, synergistic blend of Corundum Crystals, Hyaluronic Acid, Chamomile, Salicylic and multiple beneficial extracts will help you love the skin you're in and will leave you not only looking good but feeling great. Suitable for all skin types except advanced acne.

PREPARATIONS: Set the mood by developing a sense of luxury and serenity for yourself and your surroundings. Close the door, and leave the outside world... *outside*. This is your time! Turn the volume low on your favorite relaxing music, prop pillows under your head, have a pitcher of citrus water and some warm, soft towels available.

WHAT TO USE:

DETOXYFING OXYGEN (O₂) FACIAL COMMISSION

WHAT TO DO:

The effectiveness of your entire skincare regimen rests on cleansing correctly. Layer a generous amount evenly over damp face and throat. Allow oxidation to foam into a luxurious masque. Leave on for a couple of minutes allowing product to draw out impurities and hydrate the skin. Rinse well with lukewarm water.

MICRODERMABRASION 2-3 FACIAL REVEAL

Finely ground Corundum Crystals are used here. Gently massage a nickel-sized amount of cream to cleansed, damp skin, in a circular motion, for 2-3 minutes. Leave on for 2-3 minutes and rinse with lukewarm water.

CELLULAR REDEFINING FACE SERUM

Hyaluronic Acid, Tea Tree, Comfrey, Vitamin E, Jojoba Oil, Safflower and Chamomile combine to hydrate. Use a couple of drops on cheeks, forehead, chin, and throat.

RAPID REPAIR FACIAL MOISTURIZER

Apply a thin layer to face and throat after cleansing in the morning and evenings.

LINE CORRECTION EYE GEL

Keep the jar in the refrigerator to realize the added cooling effect as it conforms to the gel. Gently circle the gel around the eye area with a light tapping motion. Allow the droplets to absorb. Apply daily to and around the eye area.

PORE REVOLUTION & T-ZONE MATTIFIER

Apply a thin layer as needed to a freshly cleansed face to curb surface skin oils of the nose, chin and forehead. Works to mattify, repress shine and prevent clogs.
